

DIGITAL TWINS  
OF THE OCEAN

**International Digital Twins of the Ocean Summit 2023**

**November 9-12, 2023 Xiamen, China**

September 15, 2023

## **International Digital Twins of the Ocean Summit 2023**

### **CONFERENCE ANNOUNCEMENT**

The Digital Twins of the Ocean (DITTO) Programme, endorsed by the UN Decade of Ocean Science for Sustainable Development (2021-2030) in 2021, aims to promote innovation in digital twins of the ocean technologies, demonstrate best practice applications, and provide science-based decision support tools for global ocean management and sustainable ocean development.

Initiated by the DITTO Programme, the International Digital Twins of the Ocean Summit 2023 (DITTO Summit 2023) will be held at the Xiamen International Conference Center Hotel from November 9-12, 2023. The Summit will then be co-organised by Fujian Ocean Innovation Center and State Key Laboratory of Marine Environmental Science (Xiamen University), and is one of the flagship activities of Xiamen World Ocean Week 2023. The Summit is inviting experts and scholars in the field of digital twins of the ocean from around the world to focus on perception, simulation, and visualisation. Renowned professors/experts will be invited to give keynote speeches, and various special events, e.g., three thematic workshops on cross-sectoral collaboration, early career ocean professionals (ECOPs), and Digital DEPTH, will be designed to offer multi-level communication and exchange opportunities.

Those who are interested in attending are all welcome to sign up. Details of the registration fee are listed below. The Summit has entrusted China Star (北京欣欣翼翔国际会议有限公司), the officially authorised Professional Conference Organiser (PCO), to charge the registration fee. Please kindly note that the registered participants will need to afford their food, accommodation, and transportation expenses by themselves to attend this Summit.

<b>Type</b>	<b>Early-Bird Registration (before September 23, 2023)</b>	<b>Standard Registration (from September 24, 2023)</b>
<b>Student</b>	1200 RMB	1500 RMB
<b>Standard</b>	2000 RMB	2500 RMB
