# About Beijing

## Weather in September

## Electricity

The electric current used in China is 220V 50Hz. Hotels provide 220V and 110V (shavers only) power outlets. For foreigners plug adapters and converters might be required.

## Smoking

Smoking in indoor public places has been banned in Beijing from June 1, 2015 following the rolling out of the toughest ever anti-smoking regulation in China. The regulation extends smoking bans to include all indoor public areas and workplaces, plus a number of outdoor areas including schools, seating areas in sports stadiums and hospitals where women or children are treated.

## Time

China covers five time zones – East Zone 5-9. Beijing time, which is in East Zone 8, is the only official time throughout the country; punctuality is highly appreciated.
